Robe's iPointe combines innovative ingress protection with the spectacular effect features of the MegaPointe - the best product on the market in its category.

Perfect for festivals, concerts and outdoor events and any scenario needing to deal with inclement or unpredictable weather - the iPointe is a bright, powerful multifunctional luminaire that works equally well as a beam, spot, effect and wash fixture.

The ingenious ingress protection has been designed and developed diligently over two years by Robe's R'n'D team and comprises a series of interconnected filters and air chambers that prevent water from entering the fixture as well as the need for frequent cleaning and maintenance.

The iPointe's impressive lightsource is a 310W lamp, with a lifetime of up to 4.000 hours, specially developed for Robe by Osram. It produces a brilliant, crystal clear, razor-edged beam, adjustable from a tight, punchy 1.8 degree beam to a wide 42 degrees spot.

The beam can be accurately shaped and positioned by using the innovative framing shutters emulation.

Both static and rotating glass gobos produce precision in-air effects and projected images with a sharp, high-contrast, flat field. An inventive new effects engine can produce 12 varying beam and 'flower' effects, all of this taking a winning combination of creativity and weather-resistance to new levels.

Thanks to its design, the iPointe offers seamless cross-usage with MegaPointe, featuring the same DMX control, but in well-protected, water resistant housing.

Pointe, MegaPointe, iPointe. The best all-in-one product range!
